About us

Sage brings you SnowdropKCS HR and payroll software alongside Sage Outsource services. In 2007 Sage (UK) Limited acquired KCS Management Systems and Snowdrop Systems, both organisations were prominent brands within the HR and payroll industry, this offered us a unique opportunity to combine to only best functionality from each application to create one exceptional software platform crafting the SnowdropKCS suite.

Whilst our software is developed with medium to large organisations in mind, our payroll outsource service makes our product for any business regardless of size. Our original software was introduced in 1974 providing us with over 30 years' experience in the HR and payroll industry.

We offer an integrated approach enabling you to create your own solution, our software and services are designed to meet your needs:

- HR software with payroll outsourcing,
- standalone payroll software, or
- integrated HR and Payroll solutions.

As part of Sage (UK) Limited, our solutions complement the full range of Sage software, spanning Customer Relationship Management (CRM), Business Management, Construction and Financial Management software.

We aspire to help you meet every challenge with confidence.
